

Thank you for your interest in Pomeroy IT Solutions!

We're looking for dedicated, hard-working individuals who will help us achieve our goal of being the best IT provider in America. We pride ourselves on our ability to hire top talent, promote people within the company and offer both technical and soft-skills training to our employees.

Welcome to Pomeroy IT Solutions, your Kentucky headquartered IT Staffing and Solutions provider! We are extremely excited to announce that we have been awarded a contract to continue providing IT Staffing services to the Commonwealth of Kentucky. The Commonwealth is in the process of reducing its staff augmentation vendors, creating the need for currently employed resources to transition to the selected vendors.

Pomeroy is more than just a staffing company. We provide opportunities for our consultants through our Infrastructure services, Consulting, and IT Outsourcing businesses. We offer long term positions with a progressive career path. We are not just a staffing firm, we have 3,000 customers and numerous multi-year outsourcing engagements that create long term, secure IT positions for our consultants. We are headquartered in Kentucky and have a significant customer base with many opportunities for consultant growth in our very own back yard. We look forward to discussing the opportunity for you to join our Pomeroy team!

We have been a valued partner with the Commonwealth for over 18 years, and have been providing IT staffing services for them for the last 6 years. We look forward to the opportunity to continue our successes and growth. Brett Kiser has been the account executive responsible for the Commonwealth partnership for the past 13 years, and has well established relationships at every level, branch, and agency within the Kentucky state government. We are aware of the career opportunities and resource planning being conducted within the Commonwealth as well as the processes to manage your contract. This positions us to assist you in a long-term career path with growth opportunities within the state government and beyond.
