

Pomeroy Lands Kroger Award

Happy Kroger award recipients: Pomeroy team, techs and leads.

Pomeroy Vice President of Operations and Product Services Greg Lorenzen recently collected a rare award heralding the company's role in Kroger's recently completed Virtual Store Architecture project. Presented at the Four Bridges Country Club in Liberty Township, OH on March 9, 2011, the award recognizes the creative solutions, strong partnership and quality service delivered by Pomeroy to Kroger during this important initiative.

The VSA project recognition award, the first presented by Kroger in almost two decades, was presented to Pomeroy by Kroger's Senior Director, Frank Zagar; General Manager, Greg Weikel; and Vice President for Enterprise Infrastructure/Middleware Engineering, Kirk Ball.

Pomeroy Technology Solutions Executive Dave Matre said the award "shows how dedication, hard work, perseverance, and teamwork have translated into excellent customer service and client satisfaction."

Congratulations to Pomeroy's Kroger team!
