Work From Home

Enable

Many employees transitioning to a Work From Home (WFH) environment have the foundational elements in place - a laptop or desktop and an internet connection. Our packaged WFH offering helps transition workers from office to home and provides the critical support necessary to keep them productive.

Advanced Exchange/Depot Repair
Next business day replacement based upon Pomeroy centrally managing & deploying client inventory, configuration, imaging and repair/replacement

From
$93*
Per event
$2,000 one-time setup

Remote phone Support
Level 1.5 to support remote users: VPN access questions, Setting up local printers, Securing local wireless, Installation/setup

From
$12*

Pricing based upon client requirements, device types & configuration

Assess

We evaluate an organization's readiness to enable remote workers, including the connectivity and bandwidth requirements to support the user community.

WFH Readiness Assessment
Evaluating client's VPN infrastructure

From
$3,000*

* Prices will vary with service definition, duration and volume commitment. For Advanced Exchange, shipping costs are the responsibility of the customer.
