The Agile Workshop Your Roadmap to Better Results

Top Performing Companies will emerge from the coronavirus pandemic stronger and more competitive by achieving three objectives:

- Enhancing employee productivity with rapid deployment of persona-based devices and exceptional support that does not overburden current IT staff.
- Ensuring wherever employees do their work they can seamlessly and securely connect to their work environment fully protected against increasing malicious security threats.
- Creating a frictionless digital work environment that monitors and measures employees' Digital Experience.

Pomeroy's Agile Workshop helps you develop a plan to reignite or accelerate digital transformation in a post-COVID world by fully enabling your dramatically changed workforce based upon the latest industry solutions that are rapidly redefining the Digital Workplace.

The workshop provides a better understanding of the state of your current workplace environment, informs you about the latest industry solutions you can leverage, and recommends strategies to get you there.

Competitors may have already answered these questions...Have you?

- ✓ Has our digital transformation stalled during COVID?
- ✓ Have we adequately addressed the new paradigm related to how and where employees work (e.g., Work from Home, Remote, Corporate Office)?
- ✓ Are our employees empowered to obtain support any time, any place in the manner that best fits their preference?
- ✓ Do we have virtual agents/chatbots that automatically resolve issues based upon real-time knowledge of an employee's device?
- ✓ Do we provide seamless connectivity for employees regardless of location using the latest SD-WAN, Wi-Fi 6, 5G and last mile technologies?
- ✓ Are our employees and the enterprise protected with endpoint hardening technologies, privileged access management and Security at the Service Edge (SASE) computing solutions?
- ✓ Can we monitor and measure the Digital Experience to ensure employees are truly productive and delighted?
